

RSNA Pediatric Bone Age Challenge Terms of Use and Attribution

You may access and use these de-identified imaging datasets and annotations (“the data”) for the purposes of academic research and education, and other non-commercial purposes as long as you agree to abide by the following provisions:

1. Not to make any attempt to identify or contact any individual(s) who may be the subjects of the data.
2. If you share or re-distribute the data in any form, to meet the attribution requirements described below:

- Provide a link to download the [RSNA Pediatric Bone Age Challenge image datasets and annotation files](#).
- Include a citation to the 2018 *Radiology* paper:

Halabi SS, Prevedello LM, Kalpathy-Cramer J, et al. [The RSNA Pediatric Bone Age Machine Learning Challenge](#). *Radiology* 2018; 290(2):498-503.
